PROFILE

A detail-oriented and solution-focused individual with a strong background in coding and a talent for problem-solving. I am looking for a software engineering position to kickstart my career and contribute to innovative projects while continuing to grow professionally.

PROJECTS

TICKLE

- Developed a real-time chat application using MERN stack and web sockets, enabling instant messaging and seamless user interactions.

- Added a "Find People" feature to connect users and expand the platform.

- Ensured user-friendly design and efficient data management.

DIETX

- Trainer can create personalized diet and exercise plans for the clients.

- Clients can log in to the website and see their diet and exercise plans.
